

SUPPLEMENT MT. STERLING ADVOCATE

Be Careful.

The season is approaching when scores of lives are annually lost and hundreds of fires are started by carelessness in Christmas and holiday decorations. In addition to the fires and panics in crowded stores, due to careless wiring of special displays or the catching fire of inflammable decorations, thousands of dangerous risks are run in homes, churches and Sunday schools. Wherever possible, electric lights should be used instead of candles on Christmas trees and the wiring should be carefully done. If this is not possible, the greatest precaution should be taken to see that the trees are firmly installed and well braced, so that they may not be overturned when presents are being taken down or by the over-enthusiasm of the children. Under no circumstances should cotton batting be used by amateur Santa Claus' for hair and whiskers, as non-inflammable substitutes can easily be had, and the risk of serious or fatal burning is excessive. The holidays, of all periods of the year, should be freed from the danger of terrible calamities, which is always present unless reasonable precautions are taken in the matter of holiday decorations and festivities.

Fannie J. Is Sold.

James R. Peed, of this city, has sold to a New York buyer his fast pacing mare, Fannie J., for \$1,400. The mare has been shipped East. Fannie J. is a roan mare, sired by Albert J., a son of Jayhawker, and is without a record. She was trained here during the past year by Charles Bean, and later in the fall was turned over to Richard Curtis, who took her to Lexington with his string, handling her several weeks and driving her a smooth mile in 2:09½. The mare is eligible to all slow classes, is good headed and has an excellent chance to get a very low mark. She will be prepared for the races the coming season, and should make a good showing.

"A Merry Christmas and a Happy New Year to all the readers and Editor of the ADVOCATE."

Misses Bush and June Barnes, of Howard's Mill, visited the family of John Montjoy Saturday and Sunday.

Christmas bells ring again to remind us of the coming of the Savior of the world. Christmas! How sweet the name for it brings to the Christian the assurance that the Son of God came into the world to save mankind. It is the day of all days on which we should lay down our burdens of sorrow, put aside the feelings of hatred, and in the spirit of good will to all, seek to emulate the life of Him we worship. Glorious day; for it gave to mankind a day of gladness and joy, a day of forgiveness and hope, a day of assurance and reward. We should meet and greet each other with the gladness of a full heart, we should rejoice and thank God that he gave his only begotten son that generations of men may rise up and bless Him. How few appreciate the grandeur of the occasion when nineteen hundred and ten years ago, the angels sang together over the advent of the great joy. If the angels of heaven were overjoyed at the birth of Christ, how much more should we bless the day of his birth. In these days of scientific achievement we scarcely stop to read the teachings of the word of God. He taught us that though there may be a distinction between fellowmen socially, yet in sickness and distress, we all stand upon the same level, for inasmuch as we have done it unto one of the least of these, my brethren, ye have done it unto me.

Miss Laura Clay, vice president of the association, is a member of the local organization and one of the strongest advocates in America of full suffrage for women.

To Employ Alienist.

New York has a special madhouse for the criminally insane, as Harry Thaw knows to his sorrow. That such insane people should not be confined in ordinary asylums, has been proved several times recently in this State by the escape of those who use insanity as a means of escaping death or life imprisonment for their crimes. In order hereafter to prevent this the State Prison Commission is thinking of having an alienist to examine all convicts believed to be insane and to testify in court as to their condition before they are ordered to an asylum.

Governor Willson has also advised Superintendents of asylums not to receive such patients until they are convinced of their actual condition. Such a precaution seems absolutely necessary.—Lexington Herald.

To Be Turned Out.

The Danville Advocate says that Edna May, the champion show mare, owned by Mrs. Richard Tasker Lowndes, will be turned out in a few days and will not again be entered in the show ring. She is eight years old and has been shown 413 times and won 407 blue ribbons and premiums aggregating over \$14,000, and at least \$1,500 worth of handsome cups. Edna May has been shipped over 100,000 miles to the various great horse shows.

Splendid Show Coming.

Probably the most important event of the local theatrical season will be the first presentation in this city of Henry W. Savage's production of "Madame X," Alexandre Bisson's celebrated drama of mother-love, which has proved the dramatic sensation both in Europe and America. Originally produced at the Theatre Porte Ste. Martin in Paris in 1907, "Madame X" took Paris by storm. Its Paris triumph was duplicated in London, Berlin and Vienna and the exceptional popularity of the play in America has since been solidly established in Chicago and New York where capacity audiences marked every performance.
